ABOUT STC

The Society for Technical Communication is a professional association with over 6,000 members dedicated to the advancement of technical communication. STC serves its members by identifying and promoting best practices in the field and by demonstrating the economic value delivered by technical communicators. By providing lifelong learning opportunities, we help our members develop their skills and competencies so they can advance in a variety of career paths.

ABOUT THE CAROLINA CHAPTER

The STC Carolina Chapter—named Community of the Year in 2015—serves members in the Triangle and Charlotte areas of North Carolina and the foothills region of South Carolina. We also serve technical communicators worldwide by webcasting most of our program meetings.
